

Skykomish Cleanup

Construction update

May 7, 2008

Recent activities

- Green Earthworks mobilized and began excavating areas of the rail yard. This limited excavation should take approximately two weeks.
- Crews discovered buried operational equipment, such as pipes, while excavating parts of the rail yard. Contaminated pipes and material are being removed.
- Crews continued to install the new railing on the levee.
- Wells in the 2008 construction area were decommissioned, or "abandoned."
- Buildings that will be temporarily relocated this year were surveyed for hazardous materials, such as asbestos or lead paint.

New levee railing

What's happening next?

- Continue excavating areas of the rail yard.
- Demolish a trailer on BNSF property along Old Cascade Highway. Work will take approximately two weeks.
- Continue mobilizing for 2008 construction.
