

Skykomish Cleanup

Construction update

September 17, 2009

Recent activities

- More than 40,000 gallons of oil have been removed this summer.
- De-watering measures have worked well in the excavation area and excavation for 2009 is scheduled to be completed early next week.
- The Town of Skykomish is removing a leaking underground oil storage tank from Town Hall property. Soil samples will confirm all contaminated material was removed.

What's happening next?

- Backfilling at 5th Street is scheduled to continue through September 25. Following backfilling, crews will install sewer and water lines under 5th Street. 5th Street is expected to reopen to traffic around the end of October. Streets will be paved with asphalt-treated base (ATB) before winter.
- Continue restoration work at the Martin and Sarno properties.
- Foundation work will continue at the Skykomish Hotel through the week of September 21. The Hotel is scheduled to be set on the foundation the week of October 5.
- The Wheatley house is scheduled to be moved back to its property in October.
- The Town of Skykomish continues to work on the community wastewater system. **Thelma Street will be closed to vehicle traffic on Monday, September 21**, for sewer installation. A detour will be available; please follow the detour signs and guidance from the traffic control flaggers. Thelma Street will be paved with ATB following this work.
- Load out of contaminated material is expected to continue through the end of November.
